INTRODUCTION

There can be certain business scenarios where you want to customize a Transaction set in Adeptia EDI Data Dictionaries. This document will guide you through the steps of modifying any Transaction set corresponding to that Data Dictionary and using that in Adeptia.

TARGET AUDIENCE

The document is intended for the AdeptiaB2Bi users who want to customize any Transaction Set in the default EDI data dictionaries.

CUSTOMIZING TRANSACTION SET IN DATA DICTIONARY

Please follow below steps to modify/add any Transaction set in Data Dictionary:

1. Please make sure Data Dictionary is created in Adeptia if you have not created Data Dictionary then refer AdeptiaSuite_EDIUserGuide to create Data Dictionary.

   Note: Let's consider 005010 Data Dictionary and 810 message as reference example.

2. Download the XSD file for the Transaction Set:
   i. Goto Services>>Data Dictionaries>>EDI and click on View button message type you want to modify.
   ii. Copy the XSD text to any text file modify the contents as per your requirement.
   iii. Save the file with the same name as shown in the Data Dictionary list with .xsd extension.

3. Open the Created EDI Data Dictionary and click on Edit button corresponding to the Transaction Set that needs to be customized.
